Please send results to finance@onstar.io

Task 1:
In POSTMAN please generate environmental file for integration:

endpoint: https://api.comapny.com/api/paymentgateway/payments/
API Secret: 3679A4CB993215EA15AEA5CD8E70A32G
Api Key: kase1xqf90003456ea2hfx42j

Task 2:

Design simplified version of a payment gateway using ASP.NET Core. Please prepare the workflow. Main idea: Payment Gateway to provide payments with credit cards between Merchant (Client)- Bank.

Task 3:

Please implement a simplified version of that payment gateway using ASP.NET Core. The system should simulate handling payment transactions between merchants and bank- only approved and declines.
